HUGH WHITE OFFICIALLY DECLARED DEMOCRATIC NOMINEE FOR GOVERNOR

Received 182,771 Votes—Johnson Trailed With 170,705; Says He Was Not Defeated but "Submerged By Dishonest Practices—Issues Statement—White Has No Comment

Hugh Lawson White, Columbia lumberman and philanthropist Tuesday was declared Democratic nominee for governor of Mississippi by the State Democratic Executive Committee, says John B. Hurson, staff correspondent N. O. Times-Picayune.

After the committee had taken this action, former Judge Paul B. Johnson of Hattiesburg, who trailed White 12,066 votes on the official returns, issued a statement at his home asking that his friends support the administration of White, but charged that he (Johnson) had been "submerged" by "dishonest practices and unfair methods."

There was no attempt made at today's committee session to contest any of the nominations that were voted on last Tuesday.

The executive committee, however, went on record as opposing extravagant expenditure of funds in campaigns and decided to draft rigid corrupt practices legislation for introduction at the next session of the Legislature to place some curb on election expenditures.

Group Read Out of Party

A local fight in Issaquena county, the smallest voting unit in Mississippi, resulted in the state Democratic executive committee reading out of the party for two years all of those "independents" who bolted the primary, under the leadership of Colonel L. C. Dulaney, to place independents on the ticket in November.

L. F. Wise, Yazoo county committeeman, charged that Colonel Dulaney, after "counting noses," saw that his ticket would be defeated in the primary, and then withdrew from the primary, intending to run the ticket as independents next November.

Four years ago state troops were sent into Issaquena county when the followers of Colonel Dulaney and of Floyd Alford, heads of two opposing factions, clashed over the purging of the poll books of the less than 300 voters in the entire county.

The official returns in the August 27 primary election as adopted by the state Democratic executive committee today follows:

"Submerged" Says Johnson

Former Judge Johnson, who heretofore has refused to concede the victory of White, declared in his statement late today that he "was not defeated" but that he was "submerged by dishonest practices and unfair methods."

In view of the outcome, however, he wants "to be a good sport and regardless of the methods employed by the opposition" he wants "all of us to co-operate and try to make the incoming administration a success."

Johnson urged that the "wounds inflicted" be healed. He charged that "there was injected into the campaign many false issues."

"Votes were bought by the opposition, relief workers were intimidated, federal government jobs were promised for votes, including WPA projects, relief workers were threatened with dismissal from the relief rolls if they did not vote against me, and the highway organization was put into the field throughtout the state and warned not to support Johnson or they would have no jobs."

Johnson's Statement

The full statement of Johnson follows:

"To the people of the state of Mississippi:

ROBBERS MAKE BOLD AT HOTEL

Two Men Carry Away Slot Machines and Contents, Holding Up Night Manager

At an early hour Saturday morning two men accosted Sam Weston, night attendant Hotel Weston, and soon while one covered him with a gun the other carried two 5-cent slot machines from an interior room on the first floor to a waiting auto and made good their escape.

It was done within a moment, seemingly and it was evident the men were familiar with the situation and had planned the theft only too wisely.

An alarm was immediately given and Sheriff T. Ed Kellar and assistants were busy in the premises of apprehending the men and their loot before they could make their getaway. Police headquarters at New Orleans and elsewhere were immediately notified and officers were on the lookout in all adjacent sections. But the car was never located neither the men apprehended.

Just how much money the machines contained is not known. The men were said to appear colored in the early hour of the morning, but this could not be established. However, a white man, according to report, was arrested, purely on suspicion and on circumstantial evidence.

Mr. Baxter, executive manager of th ehotel found the machines in a back room at the hotel when he took over the property and left them, there, little or no attention ever paid and the patronage was scant and only by those who knew they existed in the hotel.

For Saturday of this week, the Southerners, aways a favorite in Bay St. Louis, will discourse music for the occasion. This announcement is sufficient a signal for the many who will not fail to avail themselves of an evening of pleasure.

The oldest nite club on the Coast, a constant and substantial patronage by ladies and gentlemen is always accorded this popular resort.

Merchants Bank Bldg. Undergoing Thorough Repair and Renovation

It is interesting to note the beautiful Merchants Bank & Trust Company Bldg., corner South Beach and R. R. Crossing, is in the hands of a competent corps of working men, undergoing all necessary repairs, renovating walls and new floors.

In the banking house proper the walls will receive new treatment and the floors, aside from the tile lobby, will be given a covering of new solid rubber patterns. The repairs and renovations are general and thorough, the cost is considerable but the bank's business well justifies the work. Keeping step with the march of progress has ever been in line with the bank's policy.

Painting is in charge of Harry Witter who will give the walls a special treatment under a new process.

NOTICE OF EXAMINATION

County Teachers Examination to be held Thursday, Friday and Saturday of this week. All applicants will report to the Courthouse on Thursday, Sept. 5.

LIBRARY MONTH CLUB WILL MEET TUESDAY OF NEXT WEEK, 10:30

Eleven Hundred and Fifty Four Books Borrowed at Library Month August

The next meeting of the Review of the Month Club will take place at the Honcack E. R. A. County Library on the morning of Tuesday, September the tenth, at 10:30 o'clock. Mrs. Kenneth Pepperdene will review The Angel Who Couldn't Sing, by Sophie Cleugh, and Mrs. Harry Da Ponte will talk on Current Events. The usual admission fee of ten cents will be charged the public.

Eleven hundred and fifty-four books were borrowed at the library during the month of August, this being the peak season for out-of-town guests, many of whom manifested a lively appreciation of the reading facilitites afforded visitors by the city of Bay St. Louis.

Mrs. S. Hayes, of Gray Castle, Pass Christian, has promised a number of magazines and journals for the long table in the second reading-room.

Mrs. J. H. Eddy, of Henderson Point, has pledged a donation of books.

Miss Pearl Wier, of Bay St. Louis, has offered the use of a room in her property opposite the L. & N. Railroad station to the colored people of the town, as a permanent site for their newly organized branch of the main library. Gifts of books, magazines, furniture and bric a brac are requested of people interested in the Negro venture.

A colored minstrel show and cake-walk will be given at Promote Hall on the evening of Tuesday, September the tenth, to raise funds to purchase books and magazines. The performance will start promptly at eight o'clock and an admission fee of twenty-five cents will be charged.

The Hancock E. R. A. County Library is increasing the meeting place of groups of young collegians and high school students with a secret yen for literary pronouncements, and a determiantion to appear nonchalant about it.

"Now that I haven't got anything to do," one of them was overheard to say the other day, "I might as well try reading. If I know what to read," he added, not sparing himself.

Its not a bad plan, if you have a liking for Americana, to try Thornton Wilder's latest novel, "Heaven's My Destination." You may be bewildered by a certain ingenuousness, not unlike Booth Tarkington's, running along with the opening chapters of the book. But Wilder soon hits his own stride, and Brush, the protagonist and perfect logical man, comes as near to disrupting your own reason as he comes to disrupting that of the familiar Middle Western characters the author has chosen as material for his story.

CITIZEN IS LAID TO REST

Albert Eugene Joyner, 62, Passes Away—Last Rites Saturday Afternoon

Albert Eugene Joyner, native of Pearlington, Miss., and a resident of Bay St. Louis for nearly fifty years, died at his home, Main Street, Friday evening, August 30, at 7 o'clock, following an indisposition of about two weeks.

He was 62 years, 1 month and 1 day. A son of the late Captain A. E. Joyner, native of St. Henry Parish, La., and of Amanthus Matheny Joyner, native of Greenville, Ala., who residede in Bay St. Louis for quite a number of years prior to their passing away. The Joyners were excellent people, members of that type representing the old school, typical Southerners and known for their culture and hospitality.

The passing away of "Gene" Joyner removes from our community a well and long-known citizen, a man of sterling Christian character, one who always fulfilled the requirements of duty with all loyalty possible and fidelity to his trust.

He was at one time in the employment of the city (with a former administration) in the waterworks and fire department. He was taken ill with a heart attack some two or three weeks ago while in the employ of W. A. McDonald & Son, and taken to his home from which ailment he subsequently passed away.

Mr. McDonald, Sr., in conversation with the writer only a short while ago paid unsolicited tribute to Mr. joyner, stressing his fine qualities and dependability. And so it was with all who knew him best. His fealty to duty was never qoestioned, his integrity was always above reproach. His friendship genuine.

He was a member of the First Methodist Church, Main street, and the last rites of his faith were conducted by the pastor, the Rev. J. E. Gray, both at the house and Cedar Rest Cemeter,y where he was laid away "at rest" with the dust of his ancestors.

His father was of the Confederate army, and remembered by a number of our older readers. A sister, Miss Maggie Joyner, passed away several years ago.

The deceased is survived by his widow, Miss Isabelle McCarthy, of Pearlington, this county, before her marriage, and who has the sympathy of a wide circle of friends and acquaintances over the county. She has lost a true and devoted husband and in the hour of sudden bereavement she has the consolation and security of sympathizing neighbors and friends.

Seven-Foot 'Gator Shot In Front of Bay Premises of R. Camors

Robert Camors, who resides on the North Beach, corner Boardman avenue, shot and killed a huge 'gator in the waters of the Bay about noon time Tuesday, using several shots of a 22 rifle. The saurian measured 7 feet and ten inches. Had no teeth and said by several who saw it to be of quite old age.

Paul Gorman, Jr., was walking along the pier leading to the bath house when he spied an object floating close to the surface of the water. It did not take long to learn what it was. Telling at the house what he saw Mr. Camors at once hastened to the scene and used his rifle with deadly effect, but not until he struck the side of the head. Shots over the body simply flattened.

The Sick boys a year or two ago made a similar 'catch' in that vicinity. It is thought the alligator came out from some tributary bayou or from the lowlands of the river nearby.

The body was skinned the same afternoon and the hide properly treated to be used to advantage.

Old Theater Building To Be Made Smaller and Renovated Store House

Beach Building, formerly A. & G. Theater, and latterly occupied by Atlas Drug Store for a number of years, is vacant by the closing of the drug store. The owners have given the contract for demolition of the rear section of the building overhanging the seawall and water and will renovate the forebuilding to an appreciable extent. The Ames & Gaspard interests announce the building will be thoroughly renovated and beautified and will be offered the public. Work of demolition is expected to start Monday.

FACTORY REPORTS LARGE QUANTITIES OF BEANS CANNED

Johnson Factory Contracts With Farmers For Season's Output

The seafood canning factory operated by the Johnson Brothers at the foot of the Blaize wharf pursued a new plan this last spring by turning the plant into a vegetable canning plant at the close of the seafood season. Contracts were made with local farmers for peas and beans.

A total of 4,500 cases of beans were canned during the season. These cases were composed of cans of varying size from one-gallon to No. 1 cans. No exact estimate was available of the thousands of pounds of beans required for this total canned product, but to give an idea of the quantities handled one farmer delivered to the plant a total of six tons from two pickings. In fact, the factory had to have several tons of beans on hand at a time to begin operations.

This record of a market for beans raised should be a forecast of a successful increase of bean acreage in the county for next season.

ANNUAL REGATTA SUCCESS

More Boats Than Ever Enter Event—Sea Breeze Wins Long Distance Race From Biloxi

Twenty-nine boats from all along the Mississippi Coast took part in the Third Annual Windjammer Regatta held on Labor Day, over the usual course at the mouth of Jordan river.

One of the feature races of the day was between the large sloops, two local boats, the Cinderella, and the Interference, racing against the new Lopez sloop of Biloxi. The Biloxi boat winning by a small margin, and the two local boats fighting every bit of the way for second place, with John McDonald's Cinderella nosing the Interference out at the home stake by a margin of three seconds. In the large catboat class Eddie Keep's Sea Breeze continued her winning streak. In addtition to winning the Labor Day race the Sea Breeze also won the long distance race from Biloxi here, in the fast time of four hours and twenty minutes.

For the catboats from 15 to 17 feet the Pat, owned by Wallace Weatherly of Gulfport, and sailed by Alfonso won over the Ripple and Revenge. In the class 15 feet and under the Sea Fox of Biloxi won easily over her competitors and was sailed by Joe Moran.

The seventy five foot Coast Guard boat No. 103, in charge of Capt. Williams, acted as official boat. The judges for the races were H. G. Perkins, and Bill Watts, with Warren Traub, and Wop Glover acting as timers.

The regatta as a whole was very successful and it is hoped that next year even more boats will take part.

CALLED TO FINAL REWARD

Last Rites For Miss Agnes Lagniel, Bay St. Louis, Wednesday Afternoon

Miss Agnes Lagniel, only daughter of Mr. and Mrs. Oscar Lagniel, passed away Tuesday afternoon shortly after 3 o'clock at Mercy Hospital, New Orleans ,the tenth day after an operation for appendicitis.

The patient had been rushed to New Orleans on Friday of week before last, her condition then serious. Her appendix ruptured, physicians and surgeons knew her condition was grave. However, she did as well as could be expected until peritonitis set in and on Monday night at a late hour her mother was sent for who at once joined the father at the sick bedside.

Remains were shipped to Bay St. Louis Tuesday night and exposed at the Fahey Funeral Home, Union street, where hundreds of friends visited and paid their respect and tribute to the memory of the deceased. The attendance of the funeral at 5 o'clock Wednesday evening was equally marked by an outpouring of friends and acquaintances.

The deceased was antive of New Orleans, aged 35 years, but spent all her life in Bay St. Louis, educated at St. Joseph Academy and reared in cultural environment and in the bosom of an ideal and happy home.

She is survived by her mother and father and by a half-brother, August Sentinelli, a son by first marriage of her mother; a neice of Peter Boudin of Bay St. Louis on her mother's side, and a cousin of Mrs. Alphonse J. Baron, now residing in New Orleans.

Finishing her academic education Miss Lagniel studied a full commercial course, selecting a business career, sepcializing in stenography and particularly book-keeping in which she was unusually proficient. At the time she had been taken ill she was in the employ of George R. Rea, national treasurer Kappa Sigma fraternity, in the capacity of private secretary and book-keeper and had served faithfully and to a marked degree of ability. Her employer pays her memory high tribute, for her work and fidelity to duty worthy of the great trust that had been reposed in her.

Interment was at St. Mary's Cemetery, with religious ceremony both at the Funeral Home and Church of Our Lady of the Gulf, Rev. Leo. F. Fahey conducting the last rites of the Catholic church. Innumerable floral tributes testified to the high esteem in which she was held and an outward expression of sympathy to the bereaved. These came from away as well as from the home city.

The untimely passing away of Miss Lagniel removes from our midst one who was widely acquainted and beloved by all who knew her. She was possessed of many of nature's noblest attributes. Her superior qualities of both heart and mind won for her both admiration and esteem and it was with deepest sorrow the news of her passing away was received here Tuesday afternoon. Her death not only leaves a void in the home but in the community as well. She was industrious, active and of the type that ever strives for the constructive. She was a wage earner for the home; the even tenor of her way and sunshiny disposition tempered the advancing years of her parents and was ever a factor for happiness. She had much to live for; she was useful, assisting and doing and always did for others; unselfish, solicitous and kind.

BAY ROTARY CLUB

The local civic club is expanding all the time, receivinig new members. O. T. Arnold was finally and officially elected a member at the regular meeting Tuesday evening. The program consisted of a talk on a visit to a foreign land, giving personal observations and incidents. Visitors to the club supper that evening included Bernard Knost and Chesley Gun, Rotarians from Pass Christian, Mr. Knost a former president.

VISITS HATTIESBURG

City Commissioner H. Grady Perkins returned home Thursday morning from an official visit to federal headquarters at Hattiesburg in the interest of filing the necessary papers requesting several projects for city of Bay St. Louis, the dead line for asking said to be September 8. Architect and Civil Engineer Vinson Smith has planned the projects and is co-operating with the city for federal funds with which to do. On acceptance the nature of public improvements will be published.

VISITOR SEES RISE IN VALUES

In View of Early Completion of Shortcut, Now Is Time to Buy Property, He Says

Mr. Arthur Destor, well-known citizen at New Orelans, and who owns a pharmacy at Metarie, has been visiting Bay St. Louis of late with a view of locating here and is in quest of a place to live, prefering Bay St. Louis to all other near-by sections to New Orleans.

"I have been here several times of late in quest of purchasing a home and find that realty values are rising, there being an advance on the same property each time I visit..

"I can readily understand that," continued Mr. Destor, "for no other reason than the La.-Miss. Shortcut is nearing completion and its use will soon be available to thousands of motorists and others who other wise would not come this way. The Gulf Coast naturally has innumerable attractions, is the ideal place to live, but the Shortcut, reducing round trip to New Orleans to approximately 50 miles, makes it all the more desirable.

"The wise man will purchase now. It will mean savings of much money and it is at this time the choicest property may be had."

Mr. Destor and family plan to make Bay St. Louis their future home, he wishing to retire from business and enjoy all that is worth living for. "The Chinaman takes his money with him," he said, "when he dies. It is placed in his casket and buried along with the body. But since we Americans cannot and do not attempt to take our money with us after we have passed on, I wish to enjoy whatever I may be possessed of before I answer the final customs."

Planning to reside here, he will be accompanied by his wife and young lady daughter.

CITIZEN CAPTURES TROPHY

In Pine Hills Labor Day Tourney—Fred Odom II Takes Championship Flight

Annual Labor Day golf tournament at Pine Hills, Bay St. Louis, came to a close Monday evening, with some thirty-five participants from all sections, principally New Orleans.

In the championship flight Fred Odom II, won 2 and 1 over Jake La Bourgeois, New Orleans.

Championship consolation, A. A. Villigas of New Orleans won by 4 and 3 over L. H. Barksdale, Pass Christian, Miss.

First Flight, L. S. Elliott of Bay St. Louis won 1 up over E. B. Williams of New Orleans.

First flight consolation, Joe Butler, of DeLisle, Miss, won 4 and 3 over O. O. Carpenter, of Biloxi.

Congressman Paul Maloney of New Orleans delivered the silver cups and presentation address during the evening at the club house in the presence of a large assembly. This was the second annual event of the kind and exceeded that of last year. Rules of the U. S. Gulf Association prevailed.

Congressman Maloney, whose summer home is at Pass Christian, made a happy and splendid address and gave added zest to the event.

"I am more than gratified at the success of this, our second annual tournament," said S. H. Dedeaux, manager Pine Hills Golf Club," and it is easy to prophesize a greater success for next year's similar event. People from various immediate sections of the South participated while others were present. It was evident by the large crowd that keen interest has developed in golfing and that this interest will continue in acceleration."

Pine Hills is one of the finest courses in the country and under the management of Mr. Dedeaux is growing in popularity. Quite a number of Bay St. Louis residents and others play regularly at Pine Hills on Bay St. Louis.

GOV.-DESIGNATE WHITE'S PLATFORM

HUGH WHITE was officially declared the party nominee at Jackson Tuesday at the meeting of the Mississippi State Democratic Exefutive Committee, by a vote majority of slightly over 12,000 over his opponent, Paul N. Johnson. And since the nomination in primary election is virtually an election the industrialist and successful business man from South Mississippi will be our next governor beginning his four-year term January, 1936.

Mr. White is well known in this section and over the State and it is hardly necessary to dwell on that subject here but it will be interesting to review at this particular time the platform on which he was elected.

He is pledged, in brief to the following:

Development of natural resources for the balancing of agriculture with industry.

Completion of hard surface road construction program at the earliest date consistent with a judicial and businesslike expenditure of the public funds that may become available for this purpose.

Promotion of the welfare of the wage earners.

Opposition to any workmen's compensation law that may be passed by the Legislature.

Rehabilitation of agriculture and improvements of the conditions in the homes, and particularly the rural homes, and on a basis of rates conducive to the development contemplated and in keeping with those now being established by the yardstick of the TVA for a program of rural and municipal electrification.

Adequate support for state colleges and the university.

Adequate state appropriations for support of public schools, and cooperation with school authorities to secure larger federal aid for schools.

Free school books, provided sufficient revenues are available through legislative steps without increasing taxes or issuing bonds for current expenses.

Homestead exemption of $3,000 valuation, and increasinb area of land to be exempt from 40 acres to 160 acres.

Refinancing of outstanding bonded indebtedness of counties so as to extend over longer period at lower interest rate.

Auto tags reduced in co-operation with federal government.

Adequate state funds for charity wards in local hospitals.

Continuation of mortgage moratorium act.

WHITE FAVORS STATE HIGHWAY

WITH the advent of a new governor for Mississippi, one who is pledged for highways and particularly for a main artery connecting Memphis with the Gulf Coast, we may expect the early accomplishment of an improvement that will tend to the further development of Mississippi, particularly the Gulf Coast.

Because of no direct highway thru the State thousands of motor tourists from the East who would come this way and possibly visit New Orleans, America's Most Interesting City, to the west, now go direct east to Florida resorts or West to the Pacific, the major number, however, flocking to Florida.

Gov.-Designate White favors such legislation as will make possible to receive ten million dollars from federal sources, and friendly as he is with the State Highway Department members, will co-operate with them in expending this sum for highways.

It is no secret Gov. Conner and members of the Highway Department have entertained an antipathy that has blocked such co-operation and defeated necessary means by which to procure the funds. It has been a fight, factional clash, whereby both people and State have suffered loss.

With Mr. White we expect a new day and new things that will redound to general success and in turn a certain prosperity as well.

A main highway thru the State and completion and opening of the La.-Miss. Shortcut forms a combination of roadway for the nation's travel that will prove ameliorative in more ways than one.

Advertisers will find it profitable to spend some money and time on their printed messages in the next three months.

Sooner or later the honest subscriber will pay for his newspaper; why not do it on time and save us expense and give us some encouragement?

Now that Labor Day has passed it can be conceded that the Good Old Summer Time is about over.

People who make fun of those who go to church rarely object to enjoying the civilization that is largely a result of organized religion.

Exports are valuable to farmers only when importing nations pay a price that covers an adequate standard of living for the men who grow the crops sold abroad.

GULF COAST SPORTS

MISSISSIPPI Gulf Coast is ideal place for the outdoor life. That is one of the major advantages of this section to which people from adjacent sections come hither, to participate in the varied diversions.

Monday the regatta attracted boat owners and how successful this was is best attested to by unanimous expression of participants.

At Pine Hills the three-day golf tournament proved a drawing card, players from three states were prominent for their numerous representation. Pine Hills serves a bast local clientele and, in addition, many visitors were noted.

Fishermen from up-State and from Louisiana are amply rewarded for their patience and skill with the reel. Bay St. Louis with its two nearby rivers and bayous and marsh sections as well as the waters of Missisipi Sound offer various kinds of fish, fresh and salt water. Sportsmen and others find the local and tributary waters fishing grounds of exceptional attraction. And it is no wonder many from away seek this section to indulge in their piscatorial fondness. And this all the year 'round.

Boating is a form of sport enjoyed, too, all the year due to the mild climate and temperate winters.

From the waters of the Pascagoula to that of Pearl River there is attraction for those who enjoye this form of outdoor pleasure. One may fish at any time of season and boating is always seasonable as well. Unlike Northern climes, our golfers play all the year, the sod covered with verdant growth and few are the days in mid-winter when one may not go out and play the 18-hole course.

OUR SPLENDID SCHOOL FACILITIES

CHILDREN of Bay St. Louis and vicinity are particularly fortunate regarding school opportunities in this section. No city of this size has the facilities, both public and private, here offered. Primary, garmmar and high school grades, affiliated with the nation's higher schools form a combination that leaves nothing more to be desired.

The city high school offers all branches of learning an accredited institution may be required to possess. One may study the various sciences, vocational and academic branches are complete.

Our private college and academy offers equally splendid knowledge and it is no wonder the youth from elsewhere come hither in quest of such study as they may wish to thoroughly become familiar with. Music, languages, etc., are taught in our various high schools. Commercial and other courses are to be had with equal advantage.

Our youth are exceptionally fortunate in the fact they are enabled to embrace unusual opportunity for study and learning, for cultural and physical development and to be successful in their quest for accomplishment.

The schools of this city open within the next few days. Larger enrollment than ever is anticipated. With competent and experienced corps of teachers, qualified to the fullest required provisions, we may expect a successful school year as in the past, if not more extensive in attendance.

TRIBUTE TO BAY-WAVELAND AND COAST

LABOR Day week-end brought to this section of the Mississippi Gulf Coast perhaps the largest number yet known since the holiday week-end was first established and recognized as a time for general relaxation and jollification.

Early Friday and all thru Saturday and Sunday for the day great hordes of people started their migration hither, by train, bus and private automobile. Just how many cars formed the heavy traffic over the Bay bi-county bridge is not known. It would be hard to estimate, said someone in authority, but no such number has crossed the Bay 'span' at any time for a week-end.

It is evident New Orleans and other people favored the Coast for their short-time vacation. This section received more visitors than all other-near-by resorts to New Orleans. The people came here by the thousands, enjoyed our good roads, sea breezes, salt water bathing and the hundred and one diversions we have to offer. They enjoyed every moment of their stay and it does not require an imaginary mind to say they left reluctantly and plan to return.

This popularity is a tribute to the Gulf Coast. And it is one well deserved. This is the playground of the South. The ideal place to live, to get from life all that may be offered.

Bay-Waveland welcomed the many visitors. We were glad of their visit. And may they return at no distant day and in equally as many if not in larger groups.

CHARITY SHOULD BEGIN AT HOME

THE average citizen of of Hancock County has an exalted opinion of home, if you hear what is said, but we wonder if all who praise the beauty of home life make a contribution to happiness within the four walls of their own domiciles.

Rev. Father Paul deliverel last Sunday in a local pulpit one of the best and most common sence sermons we have heard in a long time. He said charity should begin at home—between husband and wife first, then other members of the family, one's neighbors and so on down and thru a thorough sequence.

Human beings, at best, are hardly civilized. They are emotional and elemental, being usually selfish. Most of them look upon home just as we look upon life, as a place to get something for nothing. Few of us seek any opportunity for service, either in our homes of our communities.

The average home would be vastly improved if each member of the family suddenly became imbued with the idea that it offers a rare opportunity to express the finest side of our beings, which means the unselfish side.

WHAT THE PRESS IS SAYING OF MEN AND MATTERS IN EDITORIAL EXPRESSION

GUARD THE CHILDREN

(Hattiesburg American)

SCHOOL will soon begin a new session.

Every year, when classes are resumed, fear twinges the hearts of thousands of parents.

Will our children be safe? is the question which fathers and mothers ask themselves each Fall.

The greatest care must be taken to safeguard the lives and limbs of school children from the many hazards of present-day traffic.

With 36,000 persons losing their lives each year in motor vehicle accidents, it is necessary to exercise particular measures to protect the little folk.

Death or injury of any school child in an automobile accident is needless.

If school buses are constructed properly, operated by capable drivers who observe the fundamentals of "safety first," no child will be hurt or killed during the next or any subsequent school session.

It is true that many of the roads in Mississippi are in poor condition and in winter weather are more danerous than at any other time.

Hence, drivers of school buses and of automobiles in general should take greater precaution to prevent accidents involving school children especially.

A good slogan for the 1935-1936 session will be—"Make It Safer For School Children "

THE MEANEST OF ALL FISH TO UNHOOK OR TO HANDLE

(Daily Clarion Ledger)

FREAK accidents seem to increase about this time of the year.

Drownings, for example, account for practically all fatalities among fishermen, fishing otherwise being one of the sanest and safest as well as healthiest of sports.

Waco reports the death of a Texas fisherman from a rare cause. A catfish finned him in the eye, the fin reaching the brain.

They are mean little devils, tricky, hard to handle, and when they fin a person the wound is exceedingly painful.

The "treatment" advised by many negroes, which we don't endorse or recommend but which we note as a matter of interest, is to rub the finned place with the belly of the catfish, the same fish that made the wound..

We don't know what "principal" of cure this is based on, but leave the argument to the medicoes if they are interested.

DIRECTOR LUMPKIN WPA PROJECTS BE SUBMITTED AT ONCE

Corrects Statement That All ERA or Relief Workers Will Not Have To Register

Director John Lumpkin released a statement today warning the public that September 8th is the last day for submitting any kind of project to this District Office for approval.

This deadline for submitting projects to district offices was set some time ago by Mr. Harry L. Hopkins, National W. P. A. Administrator. Mr. Lumpkin urges leaders in all counties and communities who contemplate presenting a project to this office for approval, to do so before this date. He stated that his office had given proper information to all counties and subdivisions on how to get up and properly present work projects and that he and his assistants were aiding in every way to get as many projects as possible ready for presentation before September 8.

Mr. Lumpkin said: "I realize the time for preparing projects in short, and that it will necessitate the immediate sacrifice of time and effort by leaders and public spirited men and women in every community and county,(but I urge that this sacrifice be made in order that every unemployed person in this district be given work which will also aid in improving general business conditions."

Relief Workers Must Register

In a recent issue of this paper there appeared a statement that any person now on relief rolls would not be required to register in order to secure work on any W. P. A. project. A recent order from W. P. A. Headquarters in Washington corrects this statement and directs that in order to get a proper classification every person now on relief will be required to register with his or her county National Re-Employment agency. When W. P. A. projects from your county receive final approval at Washington and work is ready to start the W. P. A. office will draw necessary labor of all kinds from those registered with the National re-employment agency of our county. This applies to all classes of people who are now out of employment—professional, skilled, semiskilled, and laborers.

All persons who are now unemployed and who are not now on relief rolls are urged to register with your county National Re-Employment Agency.

Who Will Work On W. P. A. Projects

All persons working on W. P. A. projects will be selected through the National Re-Employment Agency of each county and to those selected 90 per cent will be taken from the relief rolls and 10 per cent may be furnished by the National Re-Employment Agency from persons who are properly registered. Any person who was on Relief Rolls on May 1, or who has been added since will be eligible for this work.

Many Projects Sumbitted

According to Mr. Lumpkin, Director of the Hattiesburg Office, projects totaling more than $1,500,000 and which are contemplated to give work to 8,000 peopple have already been approved by this office and sent to ackson for approval by the State Office.

"Everything possible is being done by us to speed up the preparation and submission of projects," Mr. Lumpkin stated.

DOVE SEASON TO OPEN AND CLOSE 10 DAYS EARLIER

J. N. (Ding) Darling, Chief of the U. S. Branch of Biological Survey announced today that the Southern states dove season would be opened and closed 10 days earlier this year than originally provided for in the 1935 federal hunting regulations.

The season this year will open on September 21 and close January 5. These dates hold good for Delaware, Maryland, Virginia, Kentucky, Tennessee, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Arkansas, Louisiana, Oklahoma, New Mexico, Texas, Arizona, and California. The dove season in the above districts was recently approved in a proclamation by the president after numerous protests had been received by the bureau of Biological Survey from various points of the south and west.

Included in the president's proclamation was a correction of a statement recently issued pertaining to waterfowl which gave notice that hunters would be allowed to hunt in blinds and legal floating craft only within 100 feet of natural vegetation continuous with the shore. Hunters will be allowed to hunt from blinds and legal floating craft within 100 feet of natural vegetation some distance from the shore.

Another provision corrected would have made 4 p. m. the daily closing time for waterfowl hunting apply also to the shooting of rails (other than coot) woodcck, murning doves, and band tailed pigeons. These birds may be hunted from 7 a. m. until sunset.

25TH CONVENTION OF P. T. A. TO HELD IN JACKSON, OCT. 2-4

Headquarters at Robert E. Lee Hotel—Prominent Guests to be Present

The 25th Convention of the Mississippi Congress of Parents and Teachers will be held in Jackson, October 2-4, with headquarters at the Robert E. Lee Hotel.

Each and every local, be it rural or urban, should develop the Convention Consciousness.

That is, the membership should be well aware of the importance of conventions, should as a matter of course, include the Convention expenses of the President in the annual budget; should foster the tradition that a goodly delegation of members shall attend each year, either the State Wide or the Regional as the case may be.

The significance of Conventions is not easily expressed in words. Of course one can readily enumerate the many advantages—the programs, conferences, and the personal contacts with officers and Board members who are familiar with the inner workings of the Parent Teacher organization, and who are present at Conventions expressly to assist any and all who are seeking information and guidance.

But the atmosphere of good-fellowship, the pleasurable getting together and getting acquainted, the relaxation which comes from a change of busy-ness, the broadening of outlook and interests, must remain a "song without words."

To those who have never yet attended a convention, we urgently say, "Come and see for yourself." To those who have been, no urging is necessary.

Convention Budget—Moderate

Hotel, two nights	$3.50
Meals	4.00
Registration	1.00
Tips and Incidentals	1.50
	$10.00
Plus Transporation	?
Minimum	
Hotel—two nights, 5 in room	$2.00
Meals	$2.50
Registration	1.00
Tips and Incidentals	.50
	$6.00
Transportation	?

Expenses are surprisingly low. By attending in groups of four or five, the cost of transportation by automobile can be reduced to a minimum, and hotel rates are very reasonable. As for clothes—of course it is fun to have something new, but really it makes little difference. Parent-Teacher workers are not the type of women who place undue emphasis on clothes. If they were, Parent-Teacher work would not interest them.

So, if you can have some new dresses, that is fine; but if you can not, brush up the old ones and come—plenty of others will be doing the same!

The convention wants YOU—your real self, your interest, your experience, your desire to give and to take of the benefits of this inspiring get-together. SO COME.

Alarm Sounded Sunday Night For Fire Started At Bay Inn on the Beach

City fire alarm was turned in Monday shortly after 9 o'clock when a gentleman guest at Bay Inn, on the Beach, entered his room and discovered a small fire in a corner of his room on the second floor, the wall paper carrying the flame. He reported the fire and Mrs. Tudury, proprietress, at once went to the room and with wet towels and quick action controlled the fire in its very incipiency.

Fire department responded promptly but the flame was quenched before its arrival.

The Bay Inn is a two-story frame building of spacious proportions and owned by John Osoinach, who is away in California at present. The building is leased to Mrs. Theo Tudury who operates a well-known and popular boarding house of the better type. The place closely adjoins the single story frame building dwelling of W. J. Gex, Sr.

GIFT OF A GREEN PARROT

A handsome green parrot with a red head who talks "like a sailor" and then some, was presented to Dr. D. H. Ward of Main Street a few days ago by Mrs. D. F. Livingston, widow of Dr. Livingston of Waveland. The parrot who has been a family pet for eight years, is an unusually handsome bird. This parrot is a happy addition to the family of birds which Mrs. Ward is growing at her home. She has been a canary specialist for several years and has raised some excellent singers. At present there are a number of birds at the home. The parrot awakens the canaries "at an early hour" about five a. m. and from then on throughout the day vie with him in song.

NEW FIELD

The government will soon be financing household plumbing and electrical installations through the Electric Home and Farm Industry, which will have the nation for its field of operations, heretofore confined to the Tennessee Valley.

RESTORES PENSIONS

When the President approved the recent congressional provision restoring 45 million dollars in pensions to veterans of the Spanish-American War, the Boxer Rebellion, and the Philippine Insurrection, he removed one of the last vestiges of the Economy Act of 1933 which cut 450 million dollars from the running expenses of the government.

MISS'S FORTY-FIFTH GOV. IS A BUSINESS AND IS 55 YEARS OLD; MARRIED

Couple Have No Children of Their Own—Mayor of Columbia Only Public Office He Has Held—Successful Businessman.

(By Associated Press)

Mississippi has chosen a business man as its 45th governor.

Hugh L. White, wealthy lumberman, financier and business executive, who has received the Democratic nomination for the governorship on the basis of unofficial returns from Tuesday's primary election, is a comparative novice in political life.

White's election in November is assured, as the Democratic nomination in Mississippi is tantamount to election, and rarely ever are the Democratci nominees opposed on the state ticket in the general election.

White's chief promise to the voters in his second campaign for the governorship was to "balance agriculture with industry in Mississippi," and the governor-designate is expected to devote much time and effort in a program of industrialization of Mississippi. It is certain that he will extend an official welcome to the cotton and textile industries eyeing Mississippi as a new field of development.

"I favor an eight-months school term," White declared in his campaign.

The new governor is on record as favoring an extensive program of road building, hardsurfacinig of lateral highways traversing the state, and his campaign manager, H. J. Patterson, said White advocates state co-operation with the PWA to secure a $10,000,000 grant to be matched by state funds for a program of paving.

Governor Sennett Conner, political antagonist of the state highway department, vetoed a bill last year which would have initiated a PWA road-building program in Mississippi.

White advocates an increase in homestead tax expenditures from $1,000 to $3,000, applying only to state taxes.

The next chief executive is 55 years old. He is married, but has no children. A Shriner, White is a former potentate of Wahabi Temple, Jackson.

Though the son of a millionaire lumberman, and himself a comparatively wealthy man, Hugh White does not hold himself out as an "aristocrat." At the University of Mississippi, where he attended college, Hugh White was a football star, and "hail fellow well met."

He has held only one public office, that of Mayor of his home town, Columbia, where he was "drafted" to serve by his fellow citizens. Under Mayor White, taxes were reduced in Columbia ,a thriving little city of 4,833 population, industries were brought in, the streets were paved, and many municipal improvements fostered.

Nervous, Weak Woman Soon All Right

"I had regular shaking spells from nervousness," writes Mrs. Cora Sanders, of Paragould, Ark. "I was all run-down and cramped at my time until I would have to go to bed. After my first bottle of Cardui, I was better. I kept taking Cardui and soon I was all right. The shaking quit and I did not cramp. I felt worlds better. I gave Cardui to my daughter who was in about the same condition and she was soon all right."

Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

The events will include the 75-yard dash, quarter mile, half mile, mile and two mile runs, high hurdles, shot put, hop-step and jump. The meet will be held in Loyola stadium and is sanctioned by the Southern A. A. U.

"Broadway Gondolier" Film Features Six New Song Hits

Movie makers feel proud when then have one song hit in a screen musical. Now Warner Brothers come forward with a picture in which no less than six songs are confidently expected to become outstanding hits.

The picture is "Broadway Gondolier," which comes to the A. & G. Theater on Sunday and Monday. Powell and Joan Blondell, popular stars of "Gold Diggers of 1933" are reunited. Together with Adolphe Menjou and Louise Fazenda they head the all star cast.

Harry Warren and Al Dubin, ace song?writing team, have won wide acclaim for their efforts in previous Warner Bros. productions, but with the release of "Broadway Gondolier" it is believed that even greater commendation will be showered upon them.

In addition to the singing of the popular Dick Powell, the catchy airs of Warren and Dubin are ably presented by three groups of radio favorites, the Four Mills Brothers, Ted FioRito with his nationally famed orchestra, and the Canova family.

"Lonely Gondolier" is a plaintive melody which Powell sings in both English and Italian and he also sings the lilting "Rose In Her Hair" in both languages.

"Outside of You," and "You Can Be Kissed" are two other Warren and Dubin songs headed for "best sellers" divisions, and "The Cow and The Pig and The Duck" is already being hailed as an outstanding kiddie song.

To round out the wide assortment of melodies in the picture, "Lulu's Back in Town" is presented as a low-down "hot" number and as it is rendered by the Four Mills Bros. and Ted FioRito's Orchestra, it is bound to score high with the music public.

The "four boys and a guitar" also deliver a toe-tickling version of "Sweet Lucy Brown," which they have already made famous on national network programs.

The picture is a unique musical comedy based on the story by E. Y. Harburg, Sig Herzig and Hans Kraly.

Lloyd Baron directed the picture from the screen play by Warren Duff and Sig Herzig.

HUGH WHITE OFFICIALLY DECLARED DEMOCRATIC NOMINEE FOR GOVERNOR

(Continuued form page 1)

of Mississippi, is over. It has left wounds I fear will not be healed during the life of this generation. It stirred up race hatred which can do nothing but harm to Mississippi and her people.

"I pitched my campaign upon a high plane, discussing in every speech what I conceived to be a constructive platform, including a fine system of paved roads, free schoolbooks, hospitalization in every county for the unfortunate poor, $3 automobile privilege tax, an old-age pension act, exemption of homestead up to $2500 and many other important measures.

"There was injected into the campaign many false issues. Votes were bought by the opposition, relief workers were intimidated, federal government jobs were promised for votes, including WPA projects, relief workers were threatened with dismissal from the relief rolls if they did not vote against me, and the highway organization was put into the field throughout the state with instructions to defeat Johnson or they would have no jobs. All of which I am prepared to prove after a week's investigation. That was more than I could successfully combat. I was not defeated, I was submerged by dishonest practices and unfair methods. I regret thousands of my friends are disappointed.

"Now that the election is over I want to be a good sport and, regardless of the methods employed by the opposition, I want all of us to co-operate and try to make the incoming administration a success. Let us try to heal the wounds inflicted by the fierce and unrelenting campaign waged against me, and dedicate our lives to the building of a grander and more glorious state.

"To my friends and supporters who so loyally stood by me I cannot find words to express my grateful appreciation, and, while I know you are disappointed in the outcome of the election, I want to ask each and all to join with me in helping to make the incoming administration a success.

PAUL B. JOHNSON."

Gore Asks 'Law With Teeth'

W. E. Gore, member of the committee from Quitman county, in offering his corrupt practices resolution said, "I am sick and tired of this poppycock and rot about corruption in our primaries. If it is true, I think that it is time that we did something about it and if it is not true I think that somebody should be in the penitentiary."

Gore declared that he believed this committee should do its duty" if the charge is true and demanded that the state's executive committee draw up laws "with teeth in them" for the next Legislature.

Chairman Edgar Williams of Mccomb asked Gore, "Is there anything we can do about it' before the next Legislature meets?" and the committeeman's answer was, "We can go ahead and draw up some laws for them because God knows there may not be anybody in this new Legislature who can draw a bill."

Gore has been a member of the state's executive committee for eight years and in closing said, "I don't care whether I serve any more or not with such as this going on under our nose."

"I think," Gose declared, "that a candidate making these charges of fraud and corruption, and of buying votes, ought to be made to prove these charges or be barred from running for office again.

"I want a law with some teeth in it," Gore said in closing his address which required more time than did the committee's action in declaring the Democratiic nominees.

Only one other matter enlivened the executive committee's meeting this morning, and that was the Issaquena county factional fight.

Faction Barred

L. F. Wise, member of the committee from Yazoo county, introduced the resolution scoring the Dulaney faction of Issaquena county, which withdrew its entire slate of candidates for all offices just prior to the primary.

Wise charged that the "Dulaney faction counted noses before the election and finding themselves short of the mark, they are now circulating petitions for their candidates to run as independents in the general election."

All offices in Issaquena county are bitterly contested by two factions, one headed by L. C. Dulaney and the other by Floyd Alford.

The resolution was unanimously adopted by the committee following the adding of the amendment by W. H. Anderson from Tippah county that the resolution be made to read "in the state of Mississippi" rather than "in Issaquena county."

The committee then resolved:

"Be it resolved that all said parties who withdrew from said primaries to run as independent candidates, and all electors aiding and abetting these candidates be and they are hereby declared not to be members of the Democratic party; and that they are hereby forbidden from participating in Democratic primaries to be held for the next two years, This said resolution to apply to the entire state of Mississippi."

The governor-designate, Hugh White, when reached at his Columbia home tonight, and read the statement of Johnson, declared that he had no comment to make.

Senator Bilbo confined his comment to quoting a single line from a hymn: "Hark, from a tomb the doleful song; mine ears attend the cry, ye living men."

SPENDING

While the third deficiency appropriation bill failed to pass, due to the filibuster of Senator Long, Congress managed to spend $10,200,000,000 compared with $7,526,000,000 last year, and about $9,000,000,000 the year before.

MOVIE INQUIRY

An investigation of the motion picture industry has been prosposed by Representative Sirovich, of New York. The idea is to get a report for the next session of Congress.

BIG JOB AHEAD

In spite of the fact that Congressmen have hardly gotten home the dope is that a hard session awaits them next January, with such leftover issue as NRA legislation, bonus, farm relief inflation, etc.

CARDUI FOR WOMEN

WALKER WOOD IS GRATEFUL TO FRIENDS

WALKER WOOD

TO THE PEOPLE OF MISSISSIPPI:

I am very happy. My nomination for another term as Secretary of State, which is equivalent to an election, was brought about by my loyal friends in every part of the great Commonwealth.

I appreciate your expression, on August 27th, by your suffrage, of your faith and your confidence in me and your approval of my administration, which has been honest, conscientious, efficient and courteous.

My pledge to the voters of Mississippi was that, if re-elected, I would continue such service to all of the people, and that I would work with others they selected as the heads of the respective departments, for the advancement of our state, and for the best interests of our people. This I will do to the best of my ability.

My candidacy was carried to the people of my state on my record as your Secretary of State. I was not aligned with, or supported by any political faction or combination, consequently I can render service to all of the people free of political obligations, and give every department of state full co-operation.

Now, that the will of our party has been registered, let's forget what happened in the campaign, adjourn politics, and let's all fight unitedly together for the advancement of our great state and her people.

Gratefully yours,

WALKER WOOD.

NEW GOVERNOR'S WIFE IS ESSENTIALLY HOME LOVER AND PLAIN

Has Resided at Columbia 23 Years—Emma, Family Cook Is Reluctant to Leave Old Home and Live in Big City

Dinner guests in the governor's mansion in the next four years will eat cakes and other delicacies made by the First Lady of Mississippi herself.

That fact Mrs. Hugh L. White, wife of the governor-elect, revealed Wednesday when she arrived in Jackson to receive congratulations with her husband on his victory.

For. Mrs White is essentially a home-maker, a housewife and the mother of more children than possibly any other woman in Mississippi, although she has none to call her "mother."

She didn't particularly like the idea of being a governor's wife, until "Hugh persuaded me" that it was his conviction he could render a real service to Mississippi.

"It was selfish in me not to want him to run for governor, but we've been so close all these years that I selfishly hated to give him up to public life," she said.

But now she faces four years of public life, of sharing her life's companion with the people of Mississippi without regret and without apprehension, for Mrs. White lives "each day as it comes."

She refused to plan how she'd move to Jackson and give up her loved home in Columbia before the election. She still hasn't made any definite plans, because "January is so far away," and because she didn't believe in counting votes until the voters had voted.

Born Judith Wyer Sugg, up in Providence, Ky., Mrs. White was educated in a Baptist college at Hopkinsville, Ky., and then studied piano at Cincinnati Conservatory of Music. When she came to McComb to teach music, she met Hugh White, and their marriage followed two years later.

They lived in McComb for seven years, and then moved to Columbia, where they have lived for the past 23 years. She joined the Presbyterian church, to which Mr. White belonged, when she married, and has been most active in the work of that church.

She is active in her club, and was trustee of the Mississippi Industrial Training School when it was first established. She has taught the women's Bible class in Columbia for the past 12 years, and has been organist at the Presbyterian church there for longer.

Church work and her flower garden have left little time for other things, she says.

Essentially domestic, she bakes all cakes served in her home and prepares other dishes with great enjoyment. To women at least it will be significant that Mrs. White has had only two cooks since her marriage, one for 7 years and one for the past 23.

Emma, her present cook, presents a little problem. She has constantly reiterated this summer, "I sho hope Mr. White gits de government," but she has children and grandchildren in Columbia, and Mrs. White fears she won't want to move to Jackson. Then, Emma has always refused to have anything but a wood-stove in her kitchen, and doesn't know how to cook with milk doled out in pint and quart bottles. She is used to a cow to each household and she churns with an old-fashioned churn.

Mrs. White's adopted children include several nieces and nephews, who have lived in their home, students which Mr. White has educated, and all the mill employes and their families. The Whites have employed descendents of the mill employes thru the years as they have employed descendents of their negro servants. Mrs. White knows their problems and is always personally helping them.

"The wife of our first mill foreman, hired by Mr. White's father, died the day after the first primary. her last act was voting for Mr. White," she said. The incident colored the election with sadness for them.

Mr. White's hobby, which is his intense desire to serve his fellowman, manifested in countless philanthropies, demands a great deal of support from Mrs. White, of course.

She dislikes having pictures made, and has refused to pose with Mr. White as the next First Lady. She dresses quietly, in blue a great deal, and carries herself with dignity and grace.

AFTER LONG

Some think that a House committee will try to investigate Senator Long if he takes much of a hand in the campaigns of congressmen. Speculaition arose when the special comittee set up, as usual, to investigate campaign funds, was given power to "act upon its own initiative," etc.

THIRD PARTY

A prominent eastern newspaper says Bainbridge Colby will attempt to form a "Constitutionalist" party to give disgruntled Democrats a place to go in fighting the President. W. R. Hearst, newspaper mogul, is said to be ready to back the move, which hopes to break into the "solid South."

AAA REPORT

The AAA expended $807,686,134 during the fiscal year ending June 30 with benefit payments amounting to $536,438,812. Surplus removal took $12,591,001, drought relief, food conservation and disease eradication got $148,520,819 and administrative expenses $33,583,642.

"CHISELING"

Bolstering his recommendation for legislation to retain the "advantages" of NRA, the President submitted to Congress a report prepared by the NRA, statistical forces, showing widespread "chiseling" on hours, wages and prices.
